

BinView™ Deployment Form - User

The User form defines a single user associated to a BinView™ account.
One form is required for each user.

*Account:

Name must match the account name defined on the Account deployment form.

*Username:

*Role:

A user's role specifies what content they have permissions to access.
Owner users can create, delete and update assets. Viewer users can only view asset information.
Alerts only users cannot access the website but may receive text or email alerts.

*First Name:

*Last Name:

*Email Address:

An email address is required to receive alerts and solicited site communications.

*Time Zone:

*Time Format:

Phone Number:

Secondary Email Alerts

Secondary Email Address:

Field is required if you wish to receive alerts at multiple email addresses.

Text Message Alerts

SMS Address:

Field is required if you wish to receive text message alerts.
Please enter the full address and not just a phone number (i.e. 4025551234@carrier.com).
A list of service provider domains can be found at <http://www.emailtextmessages.com>.
